6. Earth Day celebration was held on April 22, 2021.
7. Virtual Orientation Day was conducted on April 24, 2021.

SNIPPETS

Welcome week - Nursery

"I've always loved the first day of School better than the last day. Firsts are always best because they are beginnings."
- Jenny Han

The little cherubs of Daycare and Nursery blossomed at DPS, GBN Garden on March 16, 2021. To make each day special and to celebrate childhood, one day is just not enough! Keeping this thought in mind, Welcome Week was planned. Throughout the week there was excitement in the air and the young ones were zestful about the activities and their school. The week began with full enthusiasm and vivacity. To give the toddlers an insight about the beauty of their school, 'Peek a Boo' activity was planned where in virtual school tour was given by the teachers. To create exhilaration amongst our little munchkins', teachers planned a fairy visit wherein, the fairy danced with our little champions. Along with this they also enjoyed tearing & pasting activity and free hand painting on newspaper. The children came beautifully dressed and looked stunning in their favourite Cartoon Characters for the Taco 'bout a party' event, which was a great success. Children enjoyed all the fun activities and it was a pleasure to see their cheerful faces.

Virtual Orientation Day

"The capacity to learn is a gift, the ability to learn is a skill and the willingness to learn is a choice."
-Brian Herbert

Keeping in view the current COVID 19 related constraints, DPS, GBN organized an Online Orientation Programme for the new students and their parents on April 24, 2021.

The show began with the National Anthem played on Tabla by a student of Grade III. Everyone was astonished to see the little maestro playing his fingers on tabla effortlessly. The audience were welcomed with a mesmerizing welcome song (Aashaayein) by the school choir. The Principal (Ms. Bhawna Khanna) addressed the parents and welcomed them to the DPS family. She briefed them that the school believes in child centric learning and provides a healthy learning environment to each & every child. The school is running full-fledged via the online mode and commenced Class Assessments, PTM's, Competitions, Events, Workshops etc successfully in the previous session. The parents were also guided about the School's ERP system, LMS, School's website, Almanac, School rules, Transport and the Grievance cell. The Co-ordinators, Reps and Class Teachers were introduced to the parents for further queries and information. The show came to an end with the dazzling folk dance performance by school's dance group. It was indeed a marvelous show and the new parents as well as kids were wished to have a wonderful learning experience with DPS, GBN.

Holi Celebration

'Dipped in hues of love and happiness comes the festival of Holi.'

Holi is one of the most joyous festivals celebrated in India. This spring festival of colours calls for feast and celebrations. To make this cheerful festival memorable for our little ones, pre-primary wing of DPS, GBN organised Holi Celebration on March 26, 2021. Little munchkins of Daycare and Nursery came dressed up in beautiful ethnic clothes to celebrate this day with their boon companions. They enjoyed the firecracker activity and splashed colours on themselves and their family members. The children of grade Prep were dolled up in their favourite coloured out-fit. They were superbly excited to show and speak few lines about their favourite-coloured toy/object. The little learners took everyone's heart away with their endearing efforts. Holi celebration remains incomplete without some splash of colours and water balloons. So, the children merrily did spray painting with different water colours. The level of excitement was unmatched when the toddlers bursted the water balloons kept in the tubs/ buckets by jumping on them. It was the most enjoyable and joyful part of the celebration which was followed by scintillating dance performances on 'Holi' songs. It was indeed a memorable event for the kids, teachers as well as the parents.

Welcome Week - Prep

"Every child is a different kind of flower and all together they make this world a beautiful garden."

- Anonymous

In light of this delightful thought, DPS, GBN welcomed the tiny tots on board for the fascinating journey of learning in Grade Prep. It was indeed a bright new beginning of another wonderful year of their school life. A good beginning makes a big difference, believing this Grade Prep planned a week full of fun activities, games, stories, singing, dancing, and art & craft.

The joyfulness of welcome week was carried from March 16, 2021 till March 19, 2021. On the first day, the little scholars introduced themselves with an interesting 'Say Your Name with Action' activity and made a fabulous 'Welcome Craft' by folding the colourful origami sheets into tulip flowers. The second day was full of surprises for the kids as the teachers did 'Shadow Play' of their favourite nursery rhymes. The children merrily sang the rhymes along with their teachers. It was an icing on the cake when the teachers did a puppet show on the story- 'Little Red Riding Hood' on the third day. The little learners thoroughly enjoyed the story and learnt good moral values from their teachers. The fourth day was full of excitement and spark as it brought games, dance and music for the kids. Children willingly participated in the games like- Simon Says, Goodies Bag, Memory Game etc. and jiggled with their teachers on their favourite songs like- Baby Shark, Move & Freeze, Gummy Bear and many more. These joyous and amusing activities of welcome week helped in creating a firm bond between the teachers and their dearest students.

Rooh Afza Party

Refreshing drinks make our day special, and fresh taste makes it simply perfect to keep summer blues at bay. To welcome the summer with full enthusiasm and joy, our little master chefs of Daycare laid their hands in making Rooh Afza on April 16, 2021. It was indeed a spectacular and a mesmerizing moment for all of us to watch our tiny tots having so much fun while mixing all the ingredients together independently. The vivacity exhibited by the tiny tots was perceivable.

Red Day

Colours are the most noticeable attributes of the world around us. Not only does colour play an important role in the overall development of a child, it can also impact an individual's mood. To celebrate this beauty of colour, 'Red Day' was celebrated by Day care and Nursery students on April 23, 2021. Children wore stunning red-coloured outfits and looked like a bunch of red roses. To enhance their culinary skills, children made refreshing 'Watermelon Cooler' and enjoyed drinking it also. 'Angry Bird Craft' was made by our upcoming crafters. They beamed with joy by flaunting their creation.

Every Day is Earth Day

"Love the earth as you would love yourself."

- John Denver

Adhering to the above mentioned saying, Pre-primary wing of DPS, GBN celebrated 'Earth day' 2021 virtually on April 22, 2021 with great fervour and gaiety. Our Earth is personified as a Mother that holds us, nurtures us and provides us food and shelter. On this promising occasion of Earth day, 'Plant a Sapling' activity was organized for grade Daycare and Nursery where they learnt how to be environment-friendly at grass root level. The little munchkins collectively participated and made alluring clay 'Earth Pendant' instilling love for mother earth in them. The scholars of grade Prep were enlightened about how we can protect our mother Earth viz. planting more trees, saving natural resources, reducing pollution, keeping our surroundings clean etc. The teachers as well as the kids were dressed in blue & green clothes to flaunt their love for Mother Earth. The children learnt the importance of 3R's- Reduce, Reuse and Recycle by transforming a newspaper into a beautiful

carry-bag. Later, they decorated it by doing leaf printing and were delighted to show their environment friendly carry bags to their parents as well as classmates. The session ended with an Earth Day Pledge in which the children and the teachers promised to do their best to conserve Earth's resources and reduce pollution. It was indeed an overwhelming session for everyone.
